🔗 LinkedIn Profile

Results-driven Senior Frontend Developer and Team Lead with **6+ years of experience** building scalable, responsive web applications across OTT platforms, SaaS products, admin dashboards, and HTML template systems. Skilled in leading cross-functional teams, mentoring developers, and delivering pixel-perfect UIs with modern frameworks and tools. Recognized with **Employee of the Year** and multiple performance awards.

WORK EXPERIENCE

Senior Frontend Developer & Team Lead

Dec 2019 - Present

Goldenmace IT Solutions

- Developed responsive and high-performance web interfaces using HTML5, CSS3, SCSS, JavaScript, and Bootstrap.
- Converted UI/UX designs from Figma and Adobe PSD into pixel-perfect responsive layouts.
- Built reusable and modular UI components to improve development efficiency and maintainability.
- Ensured cross-browser compatibility across Chrome, Firefox, Safari, and Edge.
- Implemented mobile-first design principles for responsive user interfaces across multiple devices.
- Optimized website performance through code splitting, lazy loading, and asset optimization.
- Used Git version control for code management, branching, and collaboration with development teams.
- Collaborated with backend developers, UI/UX designers, and product managers in agile development environments.
- Conducted code reviews and enforced frontend coding standards and best practices.
- Mentored junior developers and provided technical guidance to the frontend team.
- Debugged and resolved UI bugs and frontend performance issues.
